

REQUEST FOR SUPERLOAD INFORMATION

PURSUANT TO PUBLIC ACT 561 OF 2002, (SEC.301)
**PERMIT APPLICATION AND/OR PERMIT FEES
ARE NON-REFUNDABLE.**

Requests for transport permit loads exceeding **16 feet in width, 15 feet in height, and/or 150 feet in length** are considered superloads.

The superload application process is initiated by submitting a superload application through the Michigan Permits and Routing System (MiTRIP) and completed by emailing the following information to MDOT-Superload-Review@Michigan.gov.

1. Shipper's letter – Required to be submitted on company letterhead, at the time of application submission:

Reason why the load cannot be reduced in size

Reason why the load cannot be shipped by rail or water

2. Route Survey Certification, Form 2465.

It may take **up to ten (10) business days**, from receipt of the MiTRIP application, shipper's letter, and Form 2465, before a permit is issued. If utility coordination is required (example: movement of a traffic signal) prior to movement, a MDOT prequalified contractor will be required to do the work. When a police escort is required by MDOT, the permit also requires that the vehicle, load, and driver be inspected by a motor carrier officer prior to movement.

Michigan State Police Operations Section coordinates the inspections and escorts and can be reached at (517) 241-8000.

State police escorts are typically conducted only on state trunk lines and expressways.

A separate permit is required for movement on county or local roads, issued by the respective jurisdiction.

Escort and inspection provisions may differ depending on local and county permit requirements.

If you require assistance accessing this information or require it in an alternative format, contact the Michigan Department of Transportation's (MDOT) Americans with Disabilities Act (ADA) coordinator at www.Michigan.gov/MDOT-ADA.

ROUTE SURVEY CERTIFICATION

[Clear Form](#)[Information](#)

INSTRUCTIONS: A certified route survey is required with a superload application **exceeding 150 feet in length, 16 feet width, and/or 15 feet in height.**

APPLICATION REQUEST ID NUMBER	PROPOSED DATES OF TRAVEL
-------------------------------	--------------------------

NAME OF APPLICANT

NAMED OWNER OR SHIPPER OF OBJECT

TYPE AND NUMBER OF OBJECTS TO BE MOVED
--

OBJECT ONLY LENGTH	OVERALL LOADED LENGTH
OBJECT ONLY WIDTH	OVERALL LOADED WIDTH
OBJECT ONLY HEIGHT	OVERALL LOADED HEIGHT

DESCRIPTION OF ROUTE. THE ROUTE MUST BE LEGIBLE AND MATCH THE ROUTE IDENTIFIED ON THE APPLICATION, INCLUDING DIRECTION (M-66N, I-94E), AND APPROPRIATE STATE OF MICHIGAN ROUTE DESIGNATIONS (I, MI US)

- ☐ THE ABOVE ROUTE HAS BEEN SURVEYED WITH A HEIGHT POLE AT _____ FEET _____ INCHES ABOVE THE ROADWAY SURFACE. I, THE UNDERSIGNED, CERTIFY THAT NO OVERHEAD OBSTRUCTIONS EXIST, INCLUDING OVERHEAD WIRES, THAT WILL INTERFERE WITH THE PERMITTED LOAD.
- ☐ THE ABOVE ROUTE HAS BEEN SURVEYED FOR THE TOTAL COMBINED LENGTH OVER 150 FEET. I, THE UNDERSIGNED, CERTIFY THAT THE VEHICLE PERMITTED CAN NEGOTIATE ALL TURNS AND CORNERS ON THE DESCRIBED ROUTE SAFELY.
- ☐ THE ABOVE ROUTE HAS BEEN SURVEYED FOR THE LOAD WIDTH. I, THE UNDERSIGNED, CERTIFY THAT THE PERMITTED WIDTH CAN NEGOTIATE ALL TURNS AND CORNERS ON THE DESCRIBED ROUTE SAFELY.
